1 – 7: For these questions, choose the best option to fill in the blanks.

1.

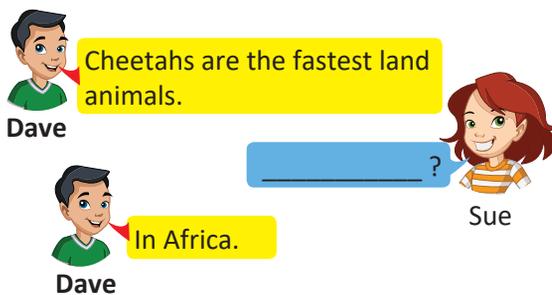

- A) Because people protected them
- B) Because some people destroyed their habitats
- C) Because some people fed them
- D) Because some people loved them so much

2.

- A) What does a giraffe eat
- B) Where does a giraffe live
- C) What does a giraffe look like
- D) Why do people hunt giraffes

3.

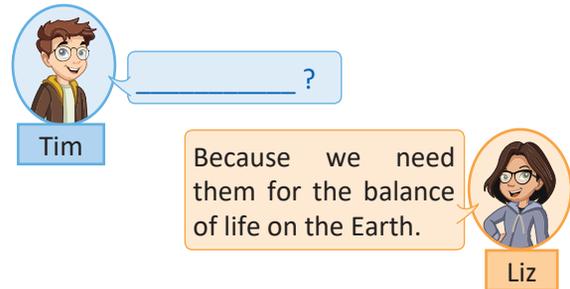

- A) What do they hunt
- B) When do they hunt
- C) Are they endangered animals
- D) Where do they live

4. Rita : How long do flamingos live?

Nick : _____.

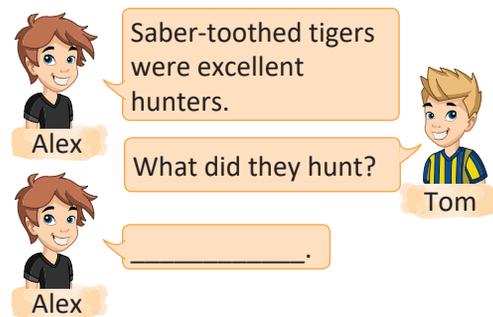

- A) Up to thirty years
- B) They eat shrimps and snails
- C) They lay eggs
- D) They measure 1,5 m

5.

- A) Why are wild animals important
- B) Why are some wild animals endangered
- C) Why are some animals extinct
- D) Why are wild animals in danger

6.

- A) They became extinct 10,000 years ago
- B) They lived in open grasslands
- C) Their paws were huge.
- D) Their preys were generally large animals such as mammoths and bisons

ALL in ALL

7. **Sue** : How long does a Western gorilla live?

Rick : _____ .

- A) It is a mammal
- B) It eats plants
- C) Its lifespan is about 40 years
- D) It is about 1,7 m

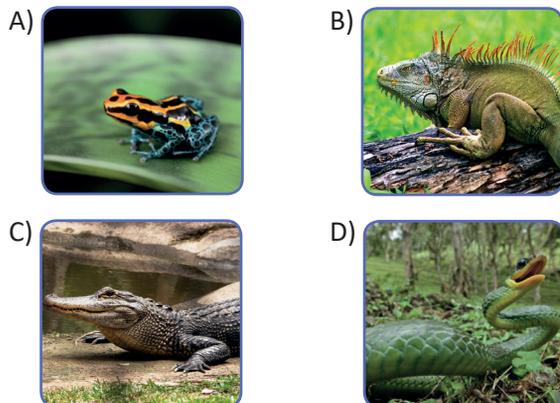

8. Penguin is a bird. It is black and white. It lives in Antarctica. It can't fly but it can swim very well. It eats fish.

Which of the following questions does NOT have an answer in the text?

- A) Where does a penguin live?
- B) What is the class of a penguin?
- C) What does a penguin eat?
- D) How much does a penguin weigh?

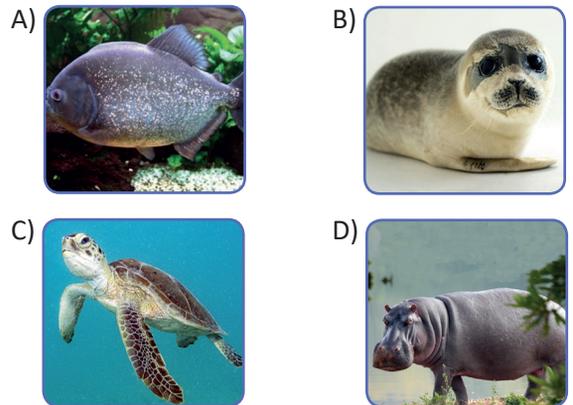

9. They are reptiles. They have got sharp tails. They are herbivores. They are cold- blooded animals. They live in tropical forests. Some people adopt them as pets.

Which of the following shows the animal that is mentioned in the text?

10. They weigh about 400 kg and measure about 2m. They are carnivores. They eat fish and octopuses. They live in silent sea caves. They are becoming extinct.

Which of the following shows the animal that is mentioned in the text?

Answer the questions (11 - 12) according to the text below.

Some animals are becoming extinct because of several reasons. First, people hunt them for their body parts such as skin, fur, meat and tusk. Second, people pollute the environment. They pollute the water, air and land. Another reason is that people destroy the habitats of the animals. They cut down trees so animals can't live in these areas and can't find food.

11. Which of the following questions HAS an answer in the text?

- A) What should we do to protect the animals in danger of becoming extinct?
- B) Why are wild animals important?
- C) What should we do to protect the endangered animals?
- D) Why are some animals becoming extinct?

12. Which of the following is NOT the reason of the extinction of the animals mentioned in the text?

- A) People destroy their habitats.
- B) People hunt them.
- C) Climate is changing.
- D) Air, land and water pollution cause the extinction of the animals.

ALL in ALL

1.

The Siberian Tiger

- at the beginning of the 20th century
- about 3 m
- up to 320 kg
- wild, mammals
- forests of Siberia

Which of the following questions about the Siberian tiger does NOT have an answer above?

- A) How size/heavy was it?
- B) Where did it live?
- C) When did it become extinct?
- D) What did it eat?

2.

They live in trees in the forests and jungles.

They can live for 20 – 30 years.

They are mammals and eat fruit, leaves and insects.

They have long arms and brown fur.

According to the conversation above, who talks about the body parts of monkeys?

- A) Judy
- B) Tom
- C) Mia
- D) Brian

3. Joseph is preparing a table about the habitats of some animals.

HABITATS		
		
dolphin	tiger	pool bear
1 _____	eagle	3 _____
shark	2 _____	penguin

Which of the following words complete the table in the CORRECT order?

- A) rhino – turtle – owl
- B) whale – bear – seal
- C) kangaroo – hawk – squirrel
- D) snake – lizard – monkey

4. Read the information about a kangaroo and a lion below and complete the sentence.

Lifetime: 6 years	Lifetime: 15 years
Weight: 90 kg	Weight: 140 kg
Type: herbivore	Type: carnivore
Food: grass, flowers and leaves	Food: meat
Habitat: Australia	Habitat: Africa

According to the information above, both of the animals _____ .

- A) eat meat and insects
- B) live in the same parts of the world
- C) weigh more than 50 kg
- D) have same lifespan

ALL in ALL

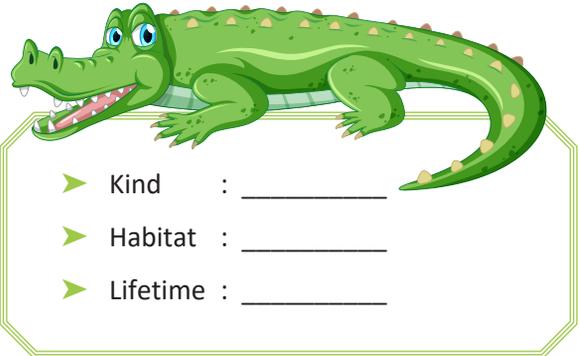

5. It's a wild animal but it isn't dangerous. It looks like a horse and it can run fast like a horse. It has black and white stripes. It's a herbivore, and it lives in forests.

Which of the following animals speaks above?

ALL in ALL

6. Nora prepares an information card about crocodiles. Here is a part from her study:

According to the information above, which of the following sentences will Nora NOT need on her card?

- A) They live in rivers.
- B) They live nearly 50 years.
- C) They are large reptiles.
- D) They have sharp teeth and big mouths.

7.

Hey, Ted? What are you doing?

I don't understand. What do you mean?

That's too bad!

I'm writing a project about extinct animals.

I mean _____.

Which of the following completes the conversation?

- A) some wild animals didn't survive because of overhunting and climate changes
- B) some wild animals are herbivorous, so they eat grass and leaves
- C) they are wild animals so they kill each other
- D) some wild animals have to move to another place to live

8. Sean prepared a poster about wildlife. Here is his poster:

Which of the following is NOT related to Sean's poster above?

- A) People shouldn't pollute the air and water. B) People should cut down more trees.
C) People should save natural habitats. D) People should help animals to survive.

9.

Polar bears are enormous animals with white fur. They live in the North Pole. They are largest and strongest carnivore on land. They spend most of their time hunting for food. They eat fish or other animals. They can swim very fast. They are endangered because of the global warming.

Which of the following is CORRECT according to the text above?

- A) There are many polar bears in the world.
B) Polar bears usually hunt for fish or other animals.

ALL in ALL

2. Which of the following is CORRECT according to the text?

- A) Tigers are herbivores and like eating plants.
B) People hunt them for their tusks.
C) Tigers are endangered animals.
D) Tigers hunt during the day.

3. Which of the following questions does NOT have an answer in the text?

- A) How long do the tigers live?
B) Why do they hunt during the night?
C) Where do the tigers live?
D) What do tigers look like?

4.

Luke's favorite animal lives in grasslands and eats leaves. It is the tallest of the land animals and has got a very long neck. It can run fast. It sleeps only about a half an hour per day. It rarely lays down.

Which of the following shows Luke's favorite animal?

A)

B)

C)

D)

ALL in ALL

5. **Ashley** : Is this animal a herbivore?

Emily : No, it isn't. It is carnivore. It eats other fish.

Ashley : Where does it live?

Emily : It lives in seas and oceans.

Ashley : What does it look like?

Emily : It is the largest fish in the world. It weighs about one point seven tons and measures about six meters. Also, it has sharp teeth.

Which of the following shows the animal that Ashley and Emily are talking about?

A)

B)

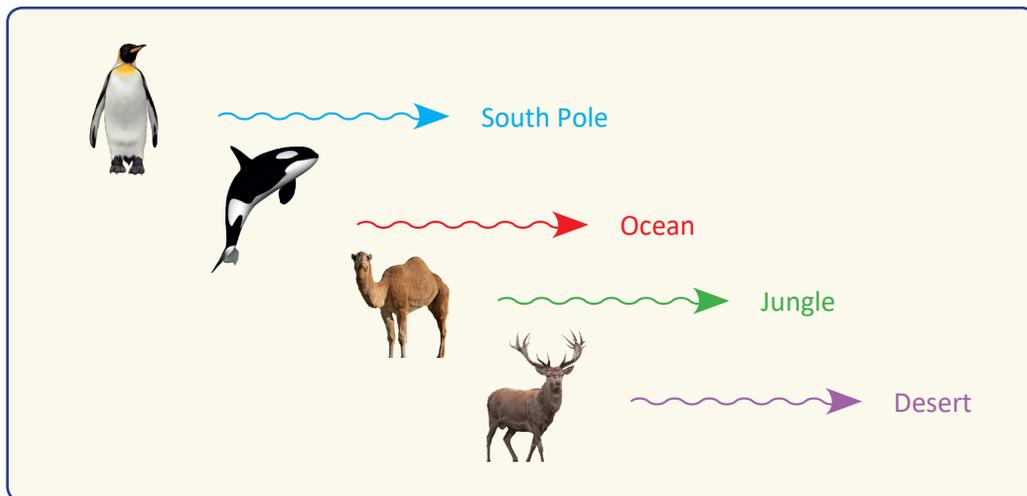

C)

D)

6. James prepares an animal brochure.

In this brochure, James gives information about _____.

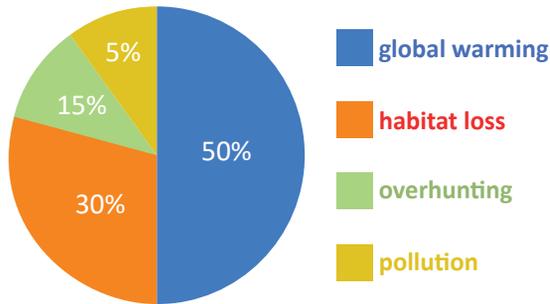

A) the natural habitat of animals

B) characteristics of some animals

C) endangered animal species

D) the diet of some animals

7. The chart below shows the reasons for animal extinction:

Which of the following is CORRECT according to the chart above?

- A) Overhunting is the biggest cause for extinction.
- B) Pollution doesn't cause the extinction of animals more than global warming.
- C) Habitat loss is the only reason for the extinction of animals.
- D) Global warming doesn't have any effects in extinction.

8.

Bob : Hey, Tim. Are there any dinosaurs in the world?

Tim : No, there aren't any. They all became extinct because an enormous asteroid changed the shape of the Earth.

Bob : _____ ?

Tim : About 65 million years ago.

Which of the following completes the conversation above?

- A) How long did they live
- B) Why did people hunt them
- C) When did they become extinct
- D) Why did they become extinct

9. Tina is working on a science project about chameleons.

- Chameleons are reptiles.
- They live in the rain forests and deserts of Africa.
- They are carnivores. They eat insects.
- They can live for five years.

Which of the following does Tina NOT mention on her project above?

- A) habitat
- B) lifespan
- C) prey
- D) weight

ALL in ALL

10.

			
	Owl	Monkey	Kangaroos
Kind	bird	mammal	herbivores
Weight	3 kg	8 kg	90 kg
Height	about 40 cm	about 16 cm	about 2 m

Which of the following is NOT correct according to the table above?

- A) Monkeys are heavier than owls.
- B) Kangaroos eat meat.
- C) Owls are shorter than kangaroos.
- D) Monkeys eat plant and meat.

1. ? → I am a bird but I can't fly. I live in the South Pole, New Zealand and Australia. I eat fish. I can live for 6 – 20 years. I am in danger of becoming extinct because of global warming.

Which of the following pictures shows the animal mentioned above?

ALL in ALL

2. Jane and Robert are playing a "YES" or "NO" game.

Jane : Is it a mammal?

Robert : Yes.

Jane : Can it swim?

Robert : No.

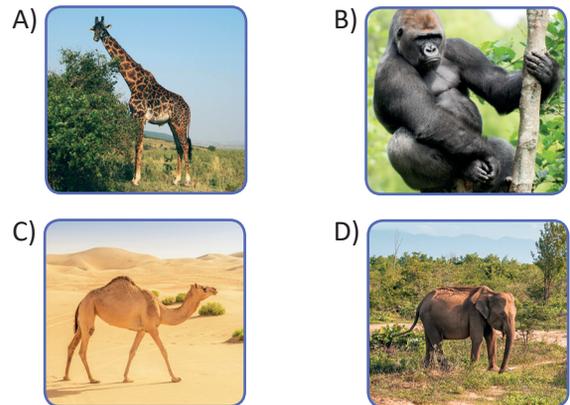

Jane : Is it a herbivore?

Robert : Yes.

Jane : Does it have a trunk?

Robert : Yes.

According to the conversation above, which of the following pictures shows the animal?

3. Here is some advice to protect environment and wildlife:

- ◆ We shouldn't kill animals for their skin, fur or teeth.
- ◆ We should save wild animals' natural habitats and educate people.
- ◆ We should keep seas, oceans and their habitats clean.
- ◆ We should vaccinate animals against diseases.
- ◆ We shouldn't pollute the environment or cut down trees.

Which of the following does NOT have an answer on the poster above?

- A) What should we do to protect wildlife?
 B) How often do we vaccinate animals?
 C) What should we do to protect endangered animals?
 D) What should we do to save their natural habitats?

4.

BLACK PANTHER

Lifetime : 23 years

Type : Wild

Family : Cats

Speed : 110 – 120 km/h

Habitat : South and Southeast Asia

Which of the following is **CORRECT** according to the information above?

- A) People can see black panthers all over the Asia.
- B) People can have them as a pet.
- C) They live more than thirty years.
- D) They can run faster than 100 km/h.

5. I. Lions and tigers are herbivores.
 II. Parrots can imitate human voice.
 III. Sharks have very sharp teeth.
 IV. Eagles are reptiles.

Which of the following sentences are **CORRECT**?

- A) I – IV
- B) I – II
- C) II – IV
- D) II – III

ALL in ALL

6. The table below shows some information about gorillas.

Class	mammal
Weight	about 260 kg
Lifespan	about 40 years
Habitat	equatorial Africa
Diet	meat and plants

According to the table above, gorillas _____.

- A) live less than thirty years
- B) live in the deserts of Africa
- C) are huge and heavy animals
- D) are dangerous reptiles

7.

Jane's favorite animal lives in Australia. It can jump high and it carries its baby in its pocket.

Which of the following animals is it?

A)

B)

C)

D)

8.

Tasmanian Tiger

- They lived in Australia and Tasmania.
- They were carnivore.
- They were around 60 cm high, 1.95 m long and 30 kg. weigh.
- Overhunting caused their extinction.

Which of the following does NOT have an answer in the information above?

- What did they eat?
- How tall were they?
- When did they become extinct?
- Where did they live?

Answer the questions (9 – 10) according to the text below.

Giant pandas are cute with their black and white fur. They are enormous mammals. An average giant panda is 1.5m and 100 kilograms and their average lifetime is 19-20 years in nature. Giant pandas live in bamboo forests in China. They are friendly animals and they don't attack people, but people hunt them to use their fur and harm their habitats. They are endangered animals so we shouldn't destroy the bamboo forests because they only eat bamboos to survive.

ALL in ALL

9. Which of the following is NOT correct according to the text above?

- They aren't dangerous for people.
- Their lifespan is about 15 years.
- People hunt them for their fur.
- People destroy their natural habitat.

10. In the text, there is NO information about giant panda's _____.

- lifespan
- weigh
- class
- prey

1.

Elsa: Animals such as penguins, leopards, polar bears and rhinos are endangered. What should we do to protect them?

Sally: We should stop global warming and plant more trees.

Elsa: You are right. Do you have any other suggestions?

Sally: _____.

Which of the following does NOT complete the conversation above?

- A) We shouldn't hunt animals for fur
- B) We shouldn't harm the environment and we should keep it clean
- C) We should protect natural parks
- D) We should pollute the habitats of the animals

2.

Mammoths are extinct animals and they lived during the last Ice Age around North America. They were relatives of today's elephants. They were herbivores and mostly ate grass, plants and leaves of trees. They became extinct because people hunted them a lot and the weather became warmer.

Which of the following questions does NOT have answer in the text above?

- A) How tall were they?
- B) Why did mammoths become extinct?
- C) What did mammoths eat?
- D) Where did mammoths live?

3. Karen is doing her homework about caretta caretta. Her classmate, Tony wants to learn about their natural habitat.

Which of the following CAN be Karen's answer?

- A) They are endangered mainly because of light pollution.
- B) They live in the ocean. You can see them on the south coast of Turkey, too.
- C) They need dark places to survive.
- D) They hunt blue crabs and small fish.

4. Tim reads a magazine about animals. Here are some of the characteristics of animals in the magazine:

- It is a cold-blooded animal and it lays eggs on land.
- It is a wild bird with sharp eyes. It can also fly higher than the other birds.
- It is a mammal and lives in the oceans and seas. It isn't dangerous and love people.

Which of the following does NOT match with any of the sentences above?

ALL in ALL

5.

ANIMALS NEWS

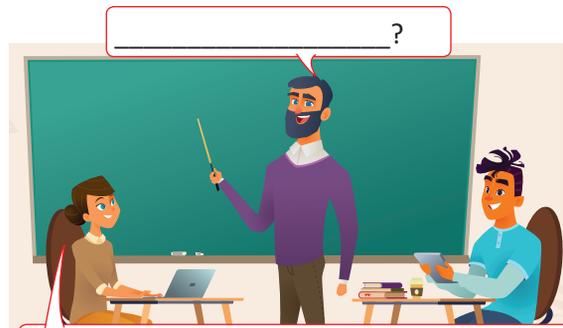

Wild animals are in danger so we should take them under protection and help them survive. We shouldn't destroy their natural habitats and we should plant more trees. We shouldn't hunt wild animals.

Which of the following is the appropriate title for the text above?

- A) Natural Habitats for Mammals
- B) Let's Save the Wildlife
- C) Endangered Animal Species
- D) Interesting Facts About Lizards

ALL in ALL

6.

The ostriches are the largest living bird. They have very long legs and long necks. They have big wings but they can't fly. Male ostriches are mostly black, with white feathers on the wings and tail. The females are mostly brown.

Which of the following completes the conversation?

- A) What do ostriches like eating
- B) Where do ostriches live
- C) What do ostriches look like
- D) How long is ostriches' lifespan

7.

The Asian Elephants

They live in forests and eat grass, leaves and bamboo. They live for 50 years. They are becoming extinct because people hunt them for their tusks.

Which of the following does NOT have an answer in the text above?

- A) What are their characteristics?
- B) How long do they live?
- C) Where do they live?
- D) Why do people hunt them?

Answer the questions (8 – 9) according to the information below.

**WILDLIFE SAFARI CAMP!
IT'S AN ADVENTURE!**

- Are you interested in wild animals?
- Would you like to see lions, elephants and giraffes in their habitats?
- What about going on a jeep safari in the wild?

Then, join our safari camp in Cape Town National Park between June 15 – 20.
For more information call: 078561241

8. In the brochure above, there is **NO** information about the _____ .

- A) place of the tour
- B) cost of the tour
- C) date of the tour
- D) contact number

9. Which of the following is **CORRECT** according to the brochure?

- A) You can stay at the city center.
- B) You cannot see any mammals on the tour.
- C) You can see reptiles on the tour.
- D) The tour starts on 15th June.

10.

Why are polar bears in danger of becoming extinct?

Because _____.

Which of the following completes the conversation above?

- A) they are carnivores
- B) they have enormous bodies
- C) they can't find prey at night
- D) global warming destroys their habitats

4.

Dora : I want to learn about falcons.

Richard : I have a lot of information about them. I can help you.

Dora : That's very nice. _____?

Richard : They usually live on the coasts or in the mountains, even in the cities!

Dora : _____?

Richard : Yes. Their main preys are starlings, doves and pigeons.

Dora : _____?

Richard : No, they aren't. There are many falcons in the world.

Which of the following does Dora NOT ask Richard?

- A) Where do they live
- B) Are they endangered animals
- C) Why are they in danger
- D) Are they carnivores

5.

Baji River Dolphin became extinct in 2004. It lived in China's Yangtze River. It became extinct because of overfishing and pollution.

Which of the following pictures shows the animal that is mentioned in the text?

ALL in ALL

6.

Polar bears are becoming extinct _____.

Why are polar bears endangered animals?

There are many reasons. Firstly, climate change and the loss of sea ice habitat is the greatest threat to polar bears. Secondly, toxic pollution. They can't find enough food. Lastly, oil and gas mining.

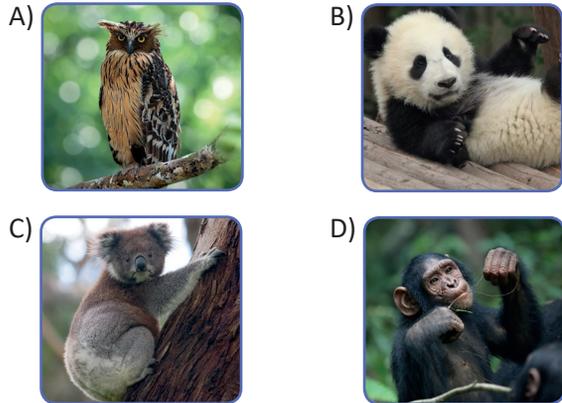

Which of the following CANNOT complete the sentence according to the conversation above?

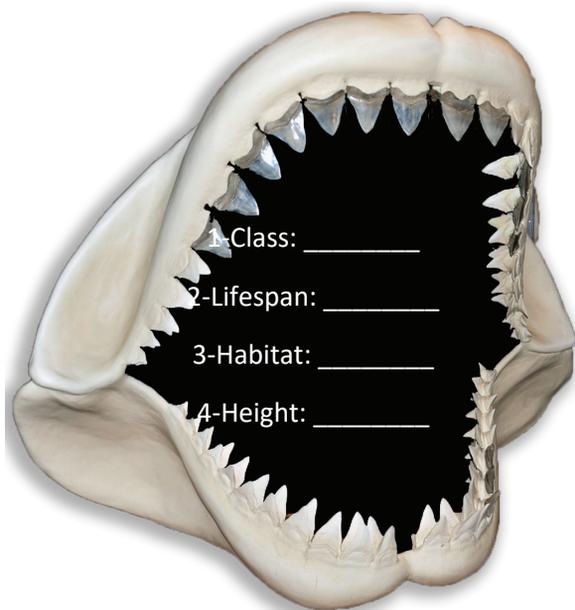

- A) because people destroy their habitats
- B) because they can't find food
- C) because of the global warming
- D) because they are prey to other wild animals

7. I live on trees. I feed on the leaves of eucalyptus trees. I usually sit and sleep in the trees for long hours.

Which of the following pictures shows the animal mentioned above?

8. Tina is preparing an information card about sharks. Here it is:

According to the table above, which of the following information should Tina use for the SECOND title?

- A) 30 years
- B) 12 m
- C) fish
- D) seas and ocean

9. **Herbivores**
★ zebra
★ gorilla
★ snake

Carnivores
★ tiger
★ turtle
★ seal

You should change the places of two animal names above to have them under the CORRECT titles. Which ones are they?

- A) seal and snake
- B) snake and turtle
- C) gorilla and tiger
- D) zebra and turtle

10.

Which of the following completes the conversation?

- A) have wings
- B) have horns
- C) have tails
- D) have claws

ALL in ALL
